VCAP602 Quick Installation Guide for Windows Vista

1. Driver setup

Step 1: Uninstall the old driver and reinstall the new driver

IMPORTANT! -IF YOU HAVE INSTALLED THE DRIVER FOR OTHER VIDEO CAPTURE DEVICES, PLEASE UNINSTALL THEM AND THEN REINSTALL THE DRIVER FOR VCAP 602 FROM THE ENCLOSED SOFTWARE CD

1)make sure login as "administrator" to install driver/software

2) UNINSTALL all the drivers/softwares for your old USB video capture

Step 2. Plug the VCAP602 into one of the USB 2.0 port, Windows Vista will show that new hardware found. Please choose **"Cancel"**

Step 3: Insert the software CD into CD/DVD Drive. Windows Vista will ask you if you'd like to "Run VCAP602.exe" or "Open folders to view files". Please choose "run VCAP602602.exe

Step 4: User access control window will come up, asking you if you trust VCAP602.exe and run it. Please choose "allow" to run VCAP602.exe. It should automatically startup and show the main menu..

If it does not startup automatically, please run Drive\setup.exe from the software CD to get the startup menu.

Please Click "Driver install"

Step 5: Click "install" when "Driver install 32bit" window comes up.

2. Setting for EZ Grabber

EZ Grabber is designed to capture video/take still photo while you playing the video on the video source device.

If you wish to edit the captured video, please use Software Honestech VHS 2 DVD.

 Video format and video source setting: Video format: for UK customers, please choose "PAL-BDHIG"

Video Source: Please choose "composite" if you use composite AV cable (yellow, red, white)

Please choose "svideo" if you use Svideo cable + R/L for audio (red/white)

Setup	
Video Capture Button Snapshot Re	cord
Video format	Video source
PAL_BDHIG	C Svideo
Picture adjustment	
Brightness:	127
Contrast:	127
Hue:	127
Saturation:	127
Sharpness:Defa	127
	OK Cancel

2)Capture button setting: if you want to capture video, please choose "Capture video", If you want to use it to take still photo, please choose "snapshot"

			Cancel

3. Basic Setting Honestech VHS to DVD

- 1) Video Device: Please choose "Conexant Polaris Video Capture"
- 2) Input device setting: click the "setting" button beside the Video device, then you can set the Input device.

Please choose "composite" if you use composite AV cable (yellow, red, white)

Please choose "svideo" if you use Svideo cable + R/L for audio (red/white)

The Video source must be set to either 'Composite' or 'Svideo' depending on which connector you are using (the yellow phono connector is Composite and the black mini-DIN connector is s-video)

3)Video Standard setting: by clicking the "control button" and go to "Video decoder" you can choose different video standard for your video source device. For the UK customer, please choose PAL-I.

Record and Burn	Maximum Recording Time				

4)Audio device setting: You **DO NOT** need to choose any audio device since the chipset for our VCAP602 has combined video and audio together and the audio recording will be controlled by the video device.

- 5) Format: you can choose different format to save the captured file such as DVD/long DVD
- 6) Video Type: please choose PAL
- 7)Split Size: please choose the size that meets your needs
